

ROSI
SALUMIFICIO

*“From the heart of Tuscany...
guardians of a treasure to be shared.”*

The company

Salumificio Rosi in Santa Maria a Monte, is a **family generation company**, for its management historical characteristics and also for the partnership built during times with its customers.

The **link with Tuscany** is a mix of strong and long-term commercial, cultural and social relationships.

Its first everyday choice is about maintaining and sharing the **authentic values**, which are often challenged by the evolution of markets and socio-economical backgrounds.

Its craft, the **production of high quality cured meat**, is always a true form of **art**, a faithful **mission** throughout the time.

The knowledge of the whole supply chain, the exclusive use of Italian guaranteed origin meats and **ingredients of high quality**, the technological power of the new production site, the intense training and involvement of the staff, will assist **Salumificio Rosi** in facing its **new commercial adventures**.

A story born from **tradition, craftsmanship**, projected towards **research, innovation and global market**.

Our company has been working in the cured meats field since sixties. The founder was **Gaspero Rosi**, a pork live stocker. The Economic growth and the increasing of meat consumption, allowed the company to develop , so that Gaspero's **son Sauro** began to work in the family business.

At the end of the sixties the meat treating was **added** to the **animal farming**, and the products were sold in the **local butchers**. In 1973, the first slaughterhouse was built and widened out during the time.

Afterward, the first cured meats productions took place, and the **SALAME TOSCANO** was since then the **pride of our production**. In 1994, according to the **EEC regulations**, the **new plant** was built, and the butchery was abandoned.

During this decade, we specialized more and more in the production of **Salami, Sausages and Pancetta** (Bacon), especially in **packing for retail**.

7th October 2012, our activity was suddenly interrupted because of a wild fire that **completely destroyed our headquarters**.

At that time, **the company was run by Sauro's sons, Silvio and Riccardo** ,who immediately began to **rebuild the Salumificio**.

9th February 2015 our new production site was **operative**. The new building, **2.500 sq.m big**, has the **most innovative production facilities** and **machineries** of last generation for both production and packaging. All these features and the total respect of the sanitary regulations, make our company an excellent and **reliable** Italian reality, **completely in compliance with the standards** of our field.

The history

I salami

Il Salame Toscano

The “**Salame Toscano Extra**”, it is with no doubt our **pride and top product**. The ingredient and the work process follow the tradition and make this product the “**real**” **traditional** Salame Toscano, **recipe** that was passed on by expert Sienese pork butchers to the first owners Gaspero and Sauro Rosi.

The **national meats** are **carefully selected** and hand worked to **reduce all the nerves**; the part used is the “**spalla**” (**shoulder**) which gives to slices a very **bright red color**. The **lardon**, coming from **national** animals, are **6 mm** wide and **carefully spreaded**.

The **spices** are of **high quality**, the **temperature** is **always supervised** during the phases of grinding, stuffing and stewing, the **PH is controlled** all over the process and the final **aging process**, which **lasts from 20 to 60 days**, give the right balance between the **genuine taste** of the selected meats and the spicing.

When we choose not exclusively national meats and pancetta (bacon), we offer a more economic product, but always with high quality standards. Our selling lines for retail and supermarket counters are different in packaging and size: whole, half and pieces, all vacuum sealed.

Pancetta or bacon

National Pancetta or bacon

Selected and carefully trimmed Italian meats, and skilful, balanced spicing make our products distinctive and valuable. “**Rigatino**” is the typical Tuscan expression that we use in this part of Italy to name the well known **Extended Bacon**.

We offer two different kinds of **Rolled Pancetta**, which differ in the previous treatment of meat skinning. The **one with rind results appealing** especially when it is exposed on the supermarket or specialized stores counters. The other, **with no rind**, requires an **easier treatment** and it’s more profitable.

The combination of two pancetta, carefully trimmed brought us to our special beacon so-called **Double Pancetta**, maximum expression of this unique taste. For each product is available both the whole and the half vacuum sealed. For the extended and rolled versions, also pieces are available for retailers.
